

### PVC Transparent Braided Hose Pipe

A PVC Transparent Braided Hose Pipe is a type of flexible tubing made from polyvinyl chloride (PVC) material. It is designed with a transparent or clear outer layer, allowing the contents to be visible as they flow through the hose. The hose pipe is further reinforced with braided layers, usually made from polyester or nylon fibers, to enhance its strength, durability, and pressure resistance.

SIZE	KG	METER
3/4"	5.0 to 5.6	30
1"	7.5 to 7.8	30
1 1/4"	10.9 to 11.8	30

### PVC Super Transparent Braided Hose Pipe

A PVC Super Transparent Braided Hose Pipe is an advanced version of the standard PVC Transparent Braided Hose Pipe. It shares the characteristics of transparency and braided reinforcement, but it typically offers enhanced features that make it stand out in terms of clarity, durability, and performance.

SIZE	KG	METER
3/4"	5.0 to 5.6	30
1"	7.5 to 7.8	30
1 1/4"	10.9 to 11.8	30

### PVC Color Transparent Garden Pipe

A PVC Color Transparent Garden Pipe is a type of hose specifically designed for use in gardening and outdoor watering applications. It is made from polyvinyl chloride (PVC) material and is characterized by its transparency and color, which sets it apart from standard garden hoses.

SIZE	KG	METER
3/4"	5.0 to 5.6	30
1"	7.5 to 7.8	30
1 1/4"	10.9 to 11.8	30

### PVC Thunder Hose Pipe

PVC Thunder Hose Pipe, often simply referred to as a "Thunder Hose," is a type of flexible hose made from polyvinyl chloride (PVC) material. It is designed to handle a variety of applications, including suction and delivery of fluids, gases, powders, and fine particles.

SIZE	THICKNESS(MM)	METER	SIZE	THICKNESS(MM)	METER	SIZE	THICKNESS(MM)	METER
16 mm	2.5	50	45 mm	5	50	102 mm	7.5	30
19 mm	2.5	50	50 mm	5	30	110 mm	7.5	30
25mm	3	50	60 mm	5	30	125 mm	7.5	30
32 mm	3.5	50	76 mm	6	30	152 mm	8	30
40 mm	4	50	89 mm	6.5	30			

### PU Duct Hose Pipe

PU Duct Hose Pipe, also known as a Polyurethane Duct Hose Pipe, is a type of flexible hose made from polyurethane (PU) material. It is specifically designed for use in various ducting and ventilation applications. PU duct hose pipes are valued for their durability, flexibility, and resistance to abrasion, making them suitable for a range of industrial and commercial applications.

**Available Size In mm :**

25 mm, 35 mm, 40 mm, 45 mm, 51 mm, 63 mm, 76 mm, 90 mm, 102 mm, 110 mm, 115 mm, 120 mm, 127 mm, 140 mm, 152 mm, 200 mm & 250 mm

**Available Length 15 MTR**

**Silicone Hose Pipe**

PVC Transparent Braided Hose Pipe is a type of flexible tubing made from polyvinyl chloride (PVC) material.

**Available Size In mm :**  
38 mm, 42 mm, 45 mm, 51 mm, 63 mm, 76 mm, 90 mm, 102 mm, 110 mm, 152 mm  
**Available Length 4 MTR**

**PVC Sanitary Connection Pipe**

MLD Hot & Cold Water PVC Geyser Connection Pipe. Suitable for Geysers, Counter Top Faucets / Water Taps & Table Top Mixers / Sink Mixers.

**Available Size 15 mm**  
**Available Length Feet :**  
1.5 Feet, 2 Feet, 3 Feet, 4 Feet.

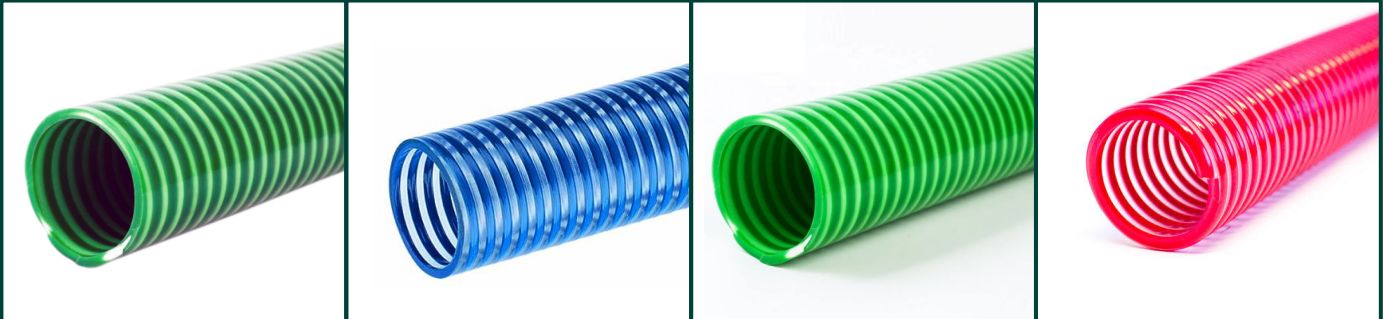

**PVC Flexible Duct Waste Pipe**

PVC Flexible Duct Waste Pipe is a type of pipe made from polyvinyl chloride (PVC) material that is used for the conveyance of waste or wastewater in various applications. It is designed to be flexible, allowing it to bend and adjust to different angles and configurations, which makes it suitable for use in situations where rigid pipes might be challenging to install.

**Available Size (Diameter) 30 mm**  
**Available Length Feet :**  
1 Meter, 1.5 Meter, 2 Meter, 3 Meter

**Suction Hose Pipe**

Suction Hose Pipe is a type of flexible hose designed for suction applications, commonly used to transfer liquids, solids, or mixtures of both. These hoses are widely used in various industries for tasks such as water pumping, irrigation, agriculture, construction, and more, Available Color Green, Blue, Parrot Green and Pink.

**Available Length 30 Mtr.**
